**EPCO Moves Headquarters to Accommodate Growth, Meet Distributors' Inventory Needs**

*Company continues to expand in-house manufacturing*

**MINNEAPOLIS**, January 15<sup>th</sup>, 2008—Engineered Products Company (EPCO), a supplier of specialty lighting and wiring consumable products for contractors, announced today that the company has moved its corporate headquarters to an 87,000-square-foot building in suburban Minneapolis. This move will help meet customers' just-in-time inventory needs in addition to accommodating the company's growth. Commenting on the move, EPCO President Jack Schuster said, "Our new location provides is more than double the size of our previous home, which will help us accommodate the growth we've been experiencing over the last 20 years. With more than twice the room we had in our previous location, we now have the space to serve customers even more efficiently, bringing more product manufacturing in house and meeting customers' just-it-time inventory needs and custom extrusion requests."

For more information about EPCO and its products, visit [www.engproducts.com](http://www.engproducts.com) or call (800) 336-1976.

**About EPCO**

Engineered Products Company supplies electrical distributors with specialty lighting, lighting accessories, and wiring solutions that address a wide range of standard and unique applications. EPCO's durable, reliable products, inventory fulfillment, and no-risk purchase terms optimize distributor cash flow and profit margins on the consumables electricians use for commercial, agricultural, industrial, and residential buildings. Known for its consistently reliable delivery and service and sales representatives who are the most knowledgeable in the electrical industry, the Minneapolis-based company offers multiple configurations of products to meet a variety of building circumstances.
