**Electrical Industry Sales Veteran Named New
Western Regional Sales Manager for EPCO**

MINNEAPOLIS, Minn., May 17, 2007—Engineered Products Company (EPCO), an easy-to-do-business-with supplier of specialty lighting and wiring solutions, announced today that it has named Geoff Turner Western Regional Sales Manager. In making the announcement, President Jack Schuster said, "Geoff's track record is extremely impressive, having increased sales every year in every position he has held, despite market fluctuations. His extensive experience in both the distribution and manufacturing sides of sales gives him a broad perspective about serving end-users."

Over the past 10 years, Turner, who will continue to be based in Salt Lake City, has covered multi-state territories in the western region of the U.S., for FCI Burndy, Codale Electric Supply, Graybar Electric, and Philips Lighting Company. He was previously a manager with Philips Petroleum and holds a BS degree from the University of Utah.

"When compared to its other territories, EPCO has a tremendous opportunity to develop its western region. I look forward to meeting distributors and end-users as I help the company become a dominant player in the product lines it carries," says Turner.

For more information about EPCO or to order a complimentary catalog, call (800) 336-1976 or visit www.engproducts.com.

About EPCO

Engineered Products Company supplies electrical distributors with specialty lighting, lighting accessories, and wiring solutions that address a wide range of standard and unique applications. In addition to providing durable and reliable products, the Minneapolis-based company offers multiple configurations of products that meet a wide range of requirements. Known for its consistently reliable delivery and service, EPCO offers convenient shipping and no-risk, guaranteed-to-sell terms. Its sales representatives are the most knowledgeable and reputable in the electrical industry.
