

LED RetroFit Conversion Kits

Our LED RetroFit Conversion Kits include a complete Gear Tray Assembly to specifically convert older 4-foot and 8-foot T8 or T12 strip-type fixtures into energy efficient LED luminaires.

- Improves the quality, integrity, and sustainability of your lighting system.
- A complete LED lighting system upgrade solution reduces energy consumption and improves energy management.
- Delivers high performance lumen output; no need to purchase a new LED luminaire.
- Provides the contractor with ultimate installation flexibility.
- The retrofit conversion is fast and easy regardless of strip-type fixture brand.

BENEFITS

- ETL Listed to UL Standard 1598C.
- DLC 5.0 Listed and approved for 33-Watt and 66-Watt Part Numbers only.
- Reduced energy consumption compared to older fluorescent lighting systems.
- High system efficacy.
- 100% tested and certified before shipping ensures out of the box performance.
- Assembled in the United States.

FEATURES

- One-piece construction, compact design, fast and trouble free installation.
- Integral adjustable installation brackets accommodate 4.25" or 5.0" strip-type fixture housing widths. See Figure 1.
- Available in two (2) or three (3) T8 fluorescent lamp equivalents.
- LED Strip Type Kits are available with or without the frosted diffuser to meet your application needs.

LED RetroFit Conversion Kit Options

Option	Notes
A. 4-Foot Frosted Diffuser with End Caps	The Frosted Diffuser is an option for strip-type LED RetroFit Conversion Kits and is strongly recommended for ceiling heights less than 15-feet. Two (2) End Caps are included with the Diffuser.
E. Emergency LED Backup Driver (LED Strip)	Non-Stock! Call EPCO Inside Sales for lead time
Occupancy Sensors R4. Microwave – On/Off Only R5. Microwave – 0-10V Dimming, 30% (LED Strip only) R6. Microwave – 0-10V Dimming, 50% (LED Strip only) Note: Longer Lead Times for pre-installed Microwave Occupancy Sensors	Recommended for ceiling heights 15-feet or lower. The microwave sensor detects the slightest movement in the occupancy zone. Detection is sensed through doors, glass, or thin walls.
Z. Bulk Packaging	25 or 50 per skid (eliminates individual carton packaging on the job site).

SPECIFICATIONS

- Output Lumens (LED Strip with Diffuser):
 - 33-Watts (3,904 lumens, 127 efficacy)
 - 48-Watts — High Output (4,920 lumens, 98 efficacy)
 - 66-Watts (7,808 lumens, 127 efficacy)
 - 96-Watts — High Output (9,840 lumens, 98 efficacy)
- Operating Voltage: 120-277 VAC @ 60/50 Hz
- Wattage: 33 or 48 (4-Foot); 66 or 96 (8-Foot)
- Color Temperature (LED Strip): 4000K or 5000K
- Total Harmonic Distortion: 20% or less
- Protection: Over voltage, Over Current, and Short Circuit
- Operating Temperature: -4°F (-20°C) to 122°F (50°C)
- Dimming Capability: 0-100% Output
- Warranty: 5 Years or 50,000 Hours at L₇₀
- Applications: Dry or Damp Locations
- Certifications:
 - UL Listed
 - RoHS Compliant
 - ETL Certified
 - DLC Listed and Approved (33- and 66-Watts)
 - FCC Part 15 Class B Consumer Limits (33- and 66-Watts)
 - FCC Part 15 Class A Non-Consumer Limits (48- and 96-Watts)

OPTIONS AND ACCESSORIES

- Emergency LED Backup Driver: Meets life safety code requirements for Emergency Illumination; provides 90 minutes of emergency egress lighting.
- Frosted Diffuser: One-piece snap-on polycarbonate UV stabilized frosted diffuser provides even lumen distribution and includes two (2) end caps with screws. The 8-Foot Fixture includes two (2) 4-Foot Diffusers, two (2) end caps and a center splice that connects the Diffusers for a complete installation.
- Magnetic Installation Tool: Suspension device used to expedite installation of the gear tray assembly. Supports one-man installation when installing 8-foot fixtures. Eliminates the use of string, tie wire, nylon straps, or other methods.
- Energy Saving Occupancy Sensors: Utilizing occupancy sensors provides automatic energy savings up to 70%. EPCO microwave occupancy sensors are suitable for low occupancy applications, including parking garage egress areas, building stairwells, warehouses and storage facilities.
