EPCO PREFAB SOLUTIONS

Built to Keep Your Jobsite Moving!

Reduced Costs and Increased Value: Prefabrication offers a cost-effective solution by reducing labor costs, material waste, and rework, while also delivering higher quality results, ultimately boosting project value and competitiveness.

Enhanced Efficiency and Quality: Streamlined prefabrication processes allow for specialized labor and controlled environments, minimizing errors and rework, ultimately improving overall project quality and efficiency.

Accelerated Project Delivery: Prefabricated components arrive ready for installation, minimizing on-site assembly, saving time and labor, and leading to faster project completion.

Labor Savings Testimonial:
"Installing 10 LED CordLights offers such a high return on labor efficiency that even if only one unit is salvaged for the next project, you've already come out ahead of the labor costs associated with traditional stringers."
