Introducing the **EPCO Power Block**, your new go-to solution for temporary jobsite power. This robust 50A, 125/250V Single-Phase, 60Hz power box is designed for convenience and reliability. Maintenance and repairs are a breeze with the easily replaceable, off-the-shelf breakers and GFCI components. Beyond standard power outlets, the EPCO Power Block also incorporates integrated Type A & C USB ports, ensuring your cell phones and tablets stay charged and connected throughout the workday. Heavy-duty 50A power cords are available in both 50- and 100-ft lengths (P/N 10961 - 50 Ft and P/N 10962 - 100 Ft).
