

PROSERIES™ LED COLORED LENSES

Engineered Products Company's (EPCO) ProSeries™ and ProSeries Elite™ LED Utility Luminaires with Colored Lenses are reliable and long-lasting luminaires that can be seen from a long distance or in sunlight.

Does the color of our sustainable LED Utility Luminaires matter? That depends on the application. Using our Colored Lenses is an investment essential to ensure public safety. And different colors have different meanings. The visual message is an important consideration when selecting the appropriate indicator color. So how do you know what color is best to use for your application? The list below can help you decide.

AMBER LIGHTING TYPICAL APPLICATIONS

- Anywhere "caution" needs to be used.
- Encourages Heightened Awareness of Potential Hazards to include:
 - Risks of tripping and falling
 - Getting burned
 - Experiencing hearing damage
 - Almost any other common hazard that may be present
- Visibility on Construction Sites.
- Visibility on Interior Airport Thoroughfares.
- Low Visibility Conditions.

RED LIGHTING TYPICAL APPLICATIONS

- Warns people to stay away from an area that poses a risk or hazard.
- Strong warnings about the presence of a hazardous process or conditions.
- Fire protection equipment, danger areas, or areas indicating a high risk of injury or death.
- Emergency stop and alarm warning areas.
- Marine applications including channel markers, docks, and harbor thoroughfares.

BLUE LIGHTING TYPICAL APPLICATIONS

- Use in buildings or on properties where the blue light is not visible to public thoroughfares.
- Used by law enforcement personnel in certain public places.
- Highlight signs and/or labels that provide information about a particular area.
- Marine applications including channel markers, docks, and harbor thoroughfares.

GREEN LIGHTING TYPICAL APPLICATIONS

- Associated with safety or security.
- Used to alert people to the presence of an emergency egress.
- Use by local Community Emergency Response Teams (CERT).
- Used on mobile command posts by fire chiefs; denotes a command station is on the scene.
- Identifies where first aid and other types of safety equipment is located.
- Marine applications including channel markers, docks, and harbor thoroughfares.
